

LUMIERE THERMAL

5591

UNIOY | 55902 · 55903

Concept

The LUMIERE THERMAL series is an ode to the transformative power of light and its profound influence on our emotional landscape.

Drawing from the most inspiring moments of the day—the gentle, diffused glow of dusk and the intense, life-affirming radiance of noon—we capture more than just color and pattern. We capture the feeling of warmth, optimism, and wonder that light evokes.

LUMIERE THERMAL is designed to manipulate the ambiance of any space. It can soften the harshness of a corporate environment with its dreamy gradients or inject unbridled positivity and creative stimulation with its bold, sunny tones. This series doesn't just illuminate floors; it elevates mood and transforms the energy of a workplace.

MIST

Concept

Depicts the gentle glow of sunset diffusing across the sky. The Mist series utilizes soft, hazy pattern gradations to create a romantic, dreamy, and comfortable spatial atmosphere, effectively alleviating the coldness and rigidity of office environments while enhancing warmth and comfort.

JOY

Concept

Draws from the passion and energy of the blazing summer sun. The Joy series employs bright, warm tones and bold designs, much like sunlight flooding the ground, aiming to stimulate spatial vitality, uplift mood, and create a positive, optimistic, and creativity-filled work environment.
